

GARAGE / SHED

The shed or garage is used to store lawn tractors, dirt bikes, snow blowers, snowmobiles, tools, winter tires, antique engines and an assortment of music instruments: drums, guitars, as well as one 4 wheelers. There is a seacan which stores a combination of these items depending on the season.

These 2 structures will continue to be applied as such.

These are all private, and not a part of any business, ours or anyone else's.
