ATTENTION: Elisha Milne, Legislative and Planning Coordinator

Dear Ms. Milne,

RE: **UPDATED – SVCA COMMENTS** - Zoning By-Law Amendment C15-24 (Brooklane Industries Inc.)
18552 Grey Road 9
Roll No.: 420709000211600
Part Lot 15, Concession 12
Geographic Township of Proton
Township of Southgate

Saugeen Valley Conservation Authority (SVCA) staff has reviewed the above-noted proposal as per our delegated responsibility from the Province to represent provincial interests regarding natural hazards identified in Section 3 of the Provincial Policy Statement (PPS, 2020) and as a regulatory authority under Ontario Regulation 41/24 (SVCA's Prohibited Activities, Exemptions and Permits Regulation). SVCA staff has also provided comments as per our Memorandum of Agreement (MOA) with the Township of Southgate representing natural hazards. The application has also been reviewed through our role as a public body under the Planning Act as per our CA Member approved Environmental Planning and Regulations Policies Manual, amended October 16, 2018. Finally, we have screened the application to determine the applicability of the Saugeen, Grey Sauble, Northern Bruce Peninsula Source Protection Plan, prepared under the Clean Water Act, 2006.

Purpose

The purpose of the proposed zoning by-law amendment is to permit an on farm diversified use on the subject lands south of the existing farm residence. The proposed workshop, office and detached power room would have a combined area of 750 square meters with 500 square meters of outdoor storage.

Background

On April 16, 2024, SVCA provided comments in relation to proposed development on the subject property. The proposal included placing fill in the floodplain which was not acceptable to SVCA. On June

1, 2024, SVCA received the updated site plan that showed no buildings, structures or fill placement would be located in the floodplain. SVCA staff are in process of issuing a SVCA permit for the proposed development.

Recommendation

These comments should be viewed together with the SVCA comments provided on June 17, 2024. On June 17, 2024, SVCA staff received an updated site plan showing that the area proposed to be rezoned to on farm diversified use will be located outside of the area of the property identified as floodplain. This has modified our June 17, 2024, comments to an approval of the zoning-by-law amendment.

SVCA staff would recommend that the Environmental Protection (EP) zone on the property be revised to match the natural hazard features mapped as hazard on the attached SVCA map. It is the opinion of SVCA staff that based on the SVCA site inspection, provided the EP zone is revised to match the SVCA's hazard lands, all buildings and structures (as shown on the June 17, 2024, site plan-attached for reference) will be outside/beyond the SVCA's recommended EP zone.

Delegated Responsibility and Advisory Comments

SVCA staff has reviewed the applications through our delegated responsibility from the Province to represent provincial interests regarding natural hazards identified in Section 3.1 of the Provincial Policy Statement (PPS, 2020). We have also reviewed the applications through our responsibilities as a service provider to the Township of Southgate in that we provide expert advice and technical clearance on *Planning Act* applications with regards to natural hazards, water resources as set out in the PPS, 2020, County Official Plan (OP) and/or local official plans. Comments below only include features/technical requirements affecting the property.

Natural Hazards

The natural hazard features of concern on the property include wetlands/swamps, tributaries of the South Saugeen River, and any floodplain associated with the wetlands/swamps and the watercourses.

It is SVCA staff's opinion that the Hazard Lands designation as shown in Schedule A of the Grey County Official Plan (OP), and Schedule A of the Southgate OP generally coincides with the SVCA Hazardous Land mapping for the property.

We note that the EP zone as shown in the Township of Southgate Zoning By-law 19-2002, as amended, does not coincide with the SVCA Hazardous Land mapping for the property. As noted above, SVCA staff recommend as part of this application that the Township of Southgate update the EP zone on the property to better reflect site conditions.

Provincial Policy Statement – Section 3.1

Section 3.1.1 of the PPS, 2020 states in part that development shall generally be directed to areas outside of hazardous lands and hazardous sites. Based on the plan submitted on June 17, 2024, the proposal would be consistent with Section 3.1.1 of the PPS, 2020.

Township of Southgate Official Plan and Grey County Official Plan

Section 5.5.2 of the Southgate OP and Section 7.2.3 of the Grey County OP state in part that buildings and structures are generally not permitted in the Hazard Lands land use type. Based on the plan submitted on June 17, 2024, the proposal would be consistent with the Southgate OP and Grey County OP.

Drinking Water Source Protection

The property appears to SVCA staff to not be located within an area that is subject to the local Drinking Water Source Protection Plan.

SVCA Regulation 41/24

SVCA staff has reviewed the proposal as per our responsibilities as a regulatory authority under Ontario Regulation 41/24 (SVCA's Prohibited Activities, Exemptions and Permits Regulation). This regulation, made under Section 28 of the Conservation Authorities Act, enables SVCA to regulate development in or adjacent to river or stream valleys, Great Lakes and inland lake shorelines, watercourses, hazardous lands and wetlands. Subject to the CA Act, development taking place on or adjacent to these lands may require permission from SVCA to confirm that the control of flooding, erosion, dynamic beaches, or unstable soil or bedrock are not affected. SVCA also regulates the alteration to or interference in any way with a watercourse or wetland.

Portions of the property are within the Approximate Screening Area associated with the SVCA's Prohibited Activities, Exemptions and Permits Regulation (Ontario Regulation 41/24). This Regulation is in accordance with Section 28 of the *Conservation Authorities Act* R.S.O, 1990, Chap. C. 27, and requires that a person obtain the written permission of the SVCA prior to any "development" within a Regulated Area or alteration to a wetland or watercourse.

For this property, the SVCA Approximate Screening Area includes wetlands/swamps, tributaries of the South Saugeen River, any floodplain associated with the wetlands/swamps and the watercourses and an offset distance from these features.

To determine where the SVCA Approximate Screening Area is located associated with our Regulation on the property, please refer to the SVCA's online mapping program, available via the SVCA's website at <http://eprweb.svca.on.ca>. Should you require assistance, please contact our office directly.

Permission for Development or Alteration

If development or alteration including construction, reconstruction, conversion, grading, filling or excavation, including agricultural tile drainage, is proposed within the SVCA Approximate Screening Area, associated with our Regulation on the property, the SVCA should be contacted, as permission may be required.

As mentioned above, SVCA staff are in the process of issuing a SVCA permit for the proposed development based on the site plan dated May 31, 2024.

Summary

SVCA staff has reviewed this proposal in accordance with our MOA with the Township of Southgate, and as per our mandated responsibilities for natural hazard management, including our regulatory role under the *Conservation Authorities Act*.

Given the above comments, it is the opinion of the SVCA staff that:

- 1) Consistency with Section 3.1, Natural Hazard policies of the PPS has been demonstrated.
- 2) Consistency with Grey County OP and Township of Southgate policies for natural hazards has been demonstrated.

SVCA staff have revised our earlier comments dated June 17, 2024. The application for a zoning by-law amendment is generally acceptable to the SVCA based on the information provided.

Please inform this office of any decision made by the Township of Southgate with regard to the proposal. Should you have any questions, please contact the undersigned.

Sincerely,

Vivian Vanceeder
Environmental Planning Technician
Saugeen Conservation
