## Fire Department Planning Comments

Date: 2024-07-25

File No.: C17-24

### Adequate water for fire suppression:

- May require a water reservoir.
- Existing water may be adequate (pond, stream, water reservoir.)
- Within a hydranted area or close proximity.
- Other/Not Required

Comments: Hydrant will be installed on site as per drawings

### Suppression equipment considerations:

- Department has all equipment needed to respond.
- Building would require an aerial device to respond.
- Department will need to purchase equipment. Equipment needed: Click or tap here to enter text.

### Other:

- No further comments.
- More information required.

Comments: Additional costs will be incurred by the Township for an aerial apparatus to respond from Shelburne

Derek Malynyk

Southgate Fire Chief, Chief Fire Official
