Subject: 24 unit townhouse proposal

Good morning. I was unable to attend yesterday's meeting but I wanted to express my concerns about this project. I understand there is a housing shortage however it seems that jamming 24 units into such a small space raises a lot of concerns. Parking for the occupants and their guests. Losing the aesthetics of main street. The effects on the neighbours. And quite frankly it seems greedy to cram so many units into such a small space. I am sure there are many other factors involved such as water supply etc. so I would like to express my objection to such a building proposal. Sincerely Zsuzsanna Nicholls.Sent from my iPhoneSent from my iPhone
