The Purpose of the application is to zone the subject lands to permit up to half of a proposed 1784 square metre floor area structure equipped with storage bins and elevator equipment to process material shipped to the site. A certified organic soil additive would be produced within the building to truck off-site to organic farmers. The proposed zoning would also allow custom grain drying as a future on farm business using similar equipment within the proposed building.

The Effect is to rezone the subject lands to allow about half of a proposed new building to be used to receive shipped in material, process it into a certified organic soil additive, and ship to organic farmers. Rezoning would also allow a future grain drying operation within the proposed new building.
