ATTENTION: Elisha Milne, Legislative and Planning Coordinator

Dear Ms. Milne,

RE: A1-24 (Solomon and Salinda Martin c/o Kristine Loft, Loft Planning Inc)  
260187 (260185) Southgate Road 26  
Con 2 SWTSR Pt Lots 198 to 200 RP 16R9480 Part 2,  
Roll No.: 420709000804200  
Geographic Township of Proton  
Township of Southgate

---

Saugeen Valley Conservation Authority (SVCA) staff has reviewed the above-noted application as per our delegated responsibility from the Province to represent provincial interests regarding natural hazards identified in Section 3.1 of the Provincial Policy Statement (PPS, 2020) and as a regulatory authority under Ontario Regulation 169/06 (SVCA's Development, Interference with Wetlands, and Alterations to Shorelines and Watercourses Regulation). SVCA staff has also provided comments as per our Memorandum of Agreement (MOA) with the Township of Southgate representing natural hazards, and natural heritage. Furthermore, the application has been reviewed through our role as a public body under the *Planning Act* as per our Conservation Authority Member approved Environmental Planning and Regulations Policies Manual, amended October 16, 2018.

### **Purpose**

The Purpose of the proposed Minor Variance is to decrease the amount of outdoor storage and increase the maximum combined size of structures associated with the On Farm Diversified Use approved in Bylaw 2014-064 for the subject lands. The Agricultural-1 Exception 333 Zone permits a 676.3 square meter Workshop, 35.6 square meter office (711.9 square meters total), and a maximum 500 square meters outdoor storage.

The applicant proposes to increase the maximum combined size of structures from 711.9 to 904 square meters and decreasing permitted outdoor storage from 500 to 310 square meters.

The Effect of the Minor Variance would be to increase the maximum combined size of structures to 904

square meters and decrease outdoor storage to 310 square meters for the On Farm Diversified Use on the subject lands.

## **Recommendation**

The application is generally acceptable to the SVCA. We elaborate in the following comments.

## **Delegated Responsibility and Advisory Comments - Natural Hazards**

SVCA Hazardous Lands mapping shows areas of the property to be low laying, floodplain of the watercourse, and wetlands/swamps. It is SVCA staff's opinion that the Hazard Lands designation as shown in Schedule A of the Grey County OP, and Schedule A of the Southgate OP, and the Environmental Protection (EP) Zone as shown in the Township of Southgate Zoning By-law 19-2002, as amended, generally coincide with the Hazardous Lands as plotted by SVCA staff for the property.

## **Provincial Policy Statement – Section 3.1**

Section 3.1.1 of the PPS, 2020 states in part that development shall generally be directed to areas outside of hazardous lands and hazardous sites. It is the opinion of SVCA staff that the application is consistent with Section 3.1.1 of the PPS, 2020.

## **Township of Southgate Official Plan and Grey County Official Plan**

Section 6.2 of the Southgate OP and Section 7.2.3 of the Grey County OP states in part that buildings and structures are generally not permitted in the Hazard Lands land use type. It is the opinion of SVCA staff that the application is consistent with the natural hazard policies of the Southgate OP and the Grey County OP.

## **SVCA Regulation 169/06**

SVCA staff has reviewed the application as per our responsibilities as a regulatory authority under Ontario Regulation 169/06 (SVCA's Development, Interference with Wetlands, and Alterations to Shorelines and Watercourses Regulation). This regulation, made under Section 28 of the Conservation Authorities Act, enables SVCA to regulate development in or adjacent to river or stream valleys, Great Lakes and inland lake shorelines, watercourses, hazardous lands and wetlands. Subject to the CA Act, development taking place on or adjacent to these lands may require permission from SVCA to confirm that the control of flooding, erosion, dynamic beaches, pollution or the conservation of land are not affected. SVCA also regulates the alteration to or interference in any way with a watercourse or wetland.

Parts of the property associated with the low areas, floodplain of watercourse and the wetlands/swamps, are within the SVCA Approximate Screening Area associated with Ontario Regulation 169/06. As such, development and/or site alteration within the SVCA Approximate Screening Area requires the permission (permit) from SVCA, prior to carrying out the work.

"Development" as defined under the *Conservation Authorities Act* means:

- a) *the construction, reconstruction, erection or placing of a building or structure of any kind;*
- b) *any change to a building or structure that would have the effect of altering the use or potential use of the building or structure, increasing the size of the building or structure or increasing the number of dwelling units in the building or structure;*

Township of Southgate

Page 3 of 3

c) *site grading; or,*

d) *the temporary or permanent placing, dumping or removal of any material, originating on the site or elsewhere.*

And;

“Alteration” as per Section 5 of Ontario Regulation 169/06 generally includes the straightening, diverting or interference in any way with a river, creek, stream or watercourse, or the changing or interfering in any way with a wetland.

To determine where the SVCA Approximate Screening Area is located associated with our Regulation on the property, please refer to the SVCA’s online mapping program, available via the SVCA’s website at <http://eprweb.svca.on.ca>. Should you require assistance, please contact our office directly.

### **SVCA Permission for Development or Alteration**

Development or alteration including construction, reconstruction, conversion, grading, filling, or excavation, including agricultural tile drainage, and interference with a watercourse and/or wetlands, proposed within the SVCA Approximate Screening Area on the property will require permission (SVCA Permit) prior to those works commencing.

However, based on the site plans submitted as part of the application, development will not be located within the SVCA Approximate Screening Area, therefore a permit from the SVCA will not be required as part of the application.

### **Summary**

SVCA staff has reviewed the application in accordance with our MOA with the Township of Southgate, and as per our mandated responsibilities for natural hazard management, including our regulatory role under the *Conservation Authorities Act*.

Given the above comments, it is the opinion of SVCA staff that:

- 1) Consistency with Section 3.1, Natural Hazard policies of the PPS has been demonstrated.
- 2) Consistency with Grey County OP and Township of Southgate policies for natural hazards has been demonstrated.

Please inform this office of any decision made by the Township of Southgate with regard to the application. We respectfully request to receive a copy of the decisions and notice of any appeals filed. Should you have any questions, please contact the undersigned.

Sincerely,

Jason Dodds

Environmental Planning Technician
