Re: File numbers A14-24, A13-24, and B8-24

The Historic Saugeen Métis (HSM) Lands, Waters and Consultation Department has reviewed the relevant documents and has no objection to the proposed Consent or the two proposed Minor Variances as presented.

As this project develops, HSM encourages the implementation of green development measures whenever possible. For example, increasing biodiversity by planting native species, reducing emissions through an energy efficient building envelope, or using low impact design stormwater management.

Thank you for the opportunity to review this matter.

Regards,

Neala
