Good afternoon Robert,

SON Archaeology was not circulated directly from the Township, however it was circulated to Saugeen Ojibway Nation <associate.ri@saugeenojibwaynation.ca> and we were under the impression that it was then distributed internally from there. If archaeology@saugeenojibwaynation.ca should be included in our circulation list, please advise.

We have not received an archaeology assessment for this application. Are you looking for us to include that as a condition of the consent? I have also included the applicant's agent to advise if there are arrangements in place to have one completed.

Thank you,

Elisha Milne

Good morning,

I don't think SON Archaeology was circulated in this request for comment, but wondering if an arch assessment is being conducted for the severed lands in this high potential area? I realize no development is presently proposed, but typically severances trigger assessment in high potential areas, whereas the future issuance of a building permit will unfortunately not.

Miigwetch,
Robert
